- **Product Dimensions: 190Lx 190H x 190W**
- **Weight per Unit: 8 kg**
- **Weight per Pallet: 1480 kg**
- **Packed per Pallet: 180 units**

Grill Block Building Idea's

Grill Block Data Sheet

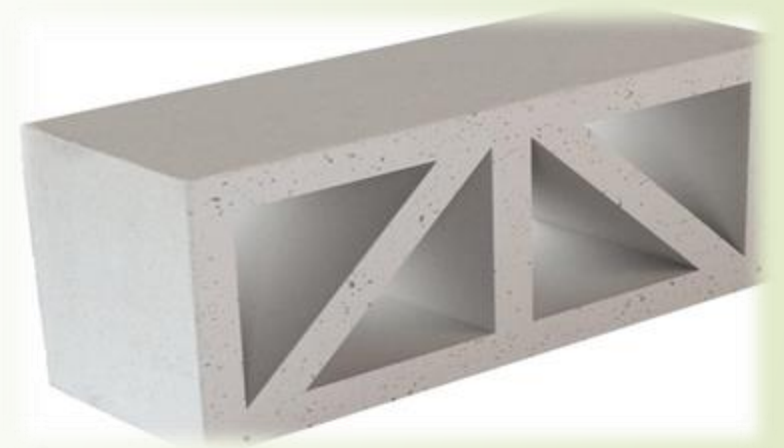

1. Stock colours. Our standard colour is Ivory, Colours other than stock colour are made by order. Contact our office for colour options.
2. Colour and texture variation. The supply of raw materials can vary over time. In addition, variation can occur between product types and production batches.
3. Important Notice. Please consult with your local council for design regulations prior to the construction of your wall. Councils in general require those walls over 0.5m in height and/or where there is loading such as a car or house near the wall to be designed and certified by a suitably qualified engineer.

Wedge Breeze Block building Idea's

Wedged Block Data Sheet

Feature walls are about creating a focal point in a room. So it is vital that you choose the right wall!

An easy step is to identify where your eye is naturally drawn when entering a room.

Some features work well as a backdrop for a favoured piece of furniture or as a screen wall in a room.

(Example: The wall in your home entrance). Sublime for Fireplaces or mantles, even alcoves can make great settings for feature walls.

Tip: Try not to choose a wall that's too small because it can make the room look visually cluttered and choppy.
